

BAComm Communication System

The new BAComm communication system from Draeger Safety offers advanced communication flexibility when using SCBA's. Incorporating an internal microphone, Draeger's BAComm system offers distinct speech clarity and volume. The bridge assembly attaches to the facepiece and provides the contact point for the internal microphone. The internal microphone/bridge assembly serves as the platform for all configurations: voice amplification, radio interface or both. The amplifier locks into position using a tongue and groove with a captive screw to secure the amplifier on the bridge assembly. The radio interface uses a quick connection positioned on the bridge assembly. Included in the interface system is the earspeaker with a large Push To Talk (PTT) button which is easily activated with a gloved hand. A wide variety of radio connections are available. The waterproof internal microphone/bridge assembly can stay on the mask even during cleaning and disinfecting procedures to save time.

Technical Data

| Approvals | NIOSH/ NFPA |
|------------------------------|---------------------------------------|
| Weight | |
| Amplifier | 5 oz. |
| Internal Microphone | 1 oz. |
| Mounting Bracket | 3 oz. |
| Earspeaker | 5 oz. |
| PTT Radio Interface | 4 oz. |
| Material | Glass Reinforced Nylon |
| Operating Temperature | -23.8°F to +176°F (-31°C to +80°C) |
| Water Resistance | |
| Amplifier | Blowing Rain per MIL 810E |
| Internal Microphone | Submersible |
| Mounting Bracket | Submersible |
| Earspeaker | Blowing Rain per MIL 810E |
| PTT Radio Interface | Blowing Rain per MIL 810E |

Ordering Information

| Description | Part Number |
|--|-------------|
| Amplifier System (internal microphone, bridge, amplifier) | 4056197 |
| Radio Interface System (internal microphone, bridge, earspeaker/PTT) | 4056210 |
| Earspeaker and PTT | 4056200 |
| Amplifier Only | 4056310 |
