

SABRE SAFETY LTD DATA SHEET

Gas Alert Max Confined Space Kit

The GasAlertMax the intelligent detector, is designed with cutting edge sensor, microcontroller and programming feature technology

- Four Sensors
- Internal Sampling pump
- Black & Decker 2 port charger and two versapak™ Batteries
- 10 Ft Sampling Hose
- Carry Holster with Belt Loop
- Larger LCD shows a simultaneous real-time display of concentration for H²S, CO, O₂ and LEL
- Simple Operation with one button control, auto cal, auto zero and auto full function self test

- Quad calibration gas (34 L) and regulator
- Calibration hose with quick connect
- Support CD-ROM with instruction manuals, quick reference cards, and datalogging software
- Hard-sided carrying case with removable shoulder strap
