Motorized Sampling
Pump Kit

Protect Yourself

The presence of a hazardous atmosphere is a major threat to workers in confined spaces. Precautions are required to protect workers from flammable or toxic atmospheric hazards and oxygen depletion/enrichment conditions.

The GasAlertMicro Confined Space Kit includes everything you need to safely enter a confined space.

- △ GasAlertMicro multi-gas detector
- △ The Sampler, motorized sampling pump or manual aspirator pump
- △ 10 ft. / 3.3 m sampling hose
- △ 4-port charger kit with rechargeable NiMH batteries or GA MicroBatt slip-in cradle charger and battery pack
- △ Quad calibration gas (34 L) and regulator
- △ Calibration hose
- △ Support CD-ROM with instruction manuals, quick reference cards, and datalogging software
- △ Hard-sided carrying case with removable shoulder strap
